MESSAGE FROM THE CHAIR

Dear Illiana Section Members,

It has been a wonderful fall so far; the weather has been warm and mostly sunny and the Cubs won the World Series - obviously something that hasn't happened in a very long time. Let's hope the weather does not punish us too bad in the next few months and the Blackhawks, Bulls and Bears supply some good moments.

Our 10th annual Illiana Conference is a little over two months away on January 20, 2017 at Prairie State College. Just another reminder: The focus will be on Lean and other Quality tools and we are still looking for more conference corporate sponsorships.

The next Illiana dinner meeting is on November 15th at Theo's Steak and Seafood in Highland, IN. Laura Clymore Ellman will be presenting on the effective applications of FMEA's. Please make a reservation and join us.

Topic: For Me, Effective Application of FMEAs

Speaker: Laura Clymore Ellman

Laura has worked in quality, in manufacturing, product design, process scale-up and compliance for nearly twenty years. She has had the pleasure of working in a wide variety of technologies such as high speed coating, paper conversion, injection molding, high speed stamping, plating, printed circuits, 3D printing, measurement technologies, and assembly. With a masters in statistics and just enough curiosity, Laura has learned just enough to be ... ?

Laura has completed FMEAs for quite a few years and would like to share some insights into making them more useful and less painful.

Outline:

1. Quick overview of FMEAs
2. Usage Flowchart
3. Risk in Compliance Areas
4. Tips from around the world
5. Recap
